VAPRONOL® T6

(adaptogenic sport complex)

CEM® matrix:

Casozepin: Is a bioactive peptide fraction of α -casein and is concentrated after tryptic hydrolysis of casein. It is one of the rare substances in nature capable to influence cortisol balance and fighting anxiety. This proprietary blend is one of the most potent natural calming and stress treating agents.

Extramel: Is a highly concentrated natural source of SOD (Super Oxide Dismutase) and catalase, the product also contains Coenzyme Q10, carotenoids, glutathione, vitamin A, C, E and selenium. Extramel has a positive effect on the signs and symptoms of perceived stress and tiredness because of its cognitive and physical tonic action.

Maca: Is a plant from the high Andes. Its extract is a rich natural source of various biologically active ingredients. Maca is a true adaptogen, meaning it helps to restore balance or homeostasis of the body thanks to its rich content of glucosinolates and macamides. It has traditionally been used to increase energy and to promote improvement in stamina and endurance in athletes.

- Modulates the hormonal production
- A cortisol blocker
- Is capable of enclosing sugars into muscles and so directly stimulates energetic processes
- Has strong anti-oxidative characteristics (contains SOD)
- Increases immunity
- Has a positive influence on biosynthesis of protein
- Modulates the overproduction of catecholamines in stress situations.
- **VAPRONOL T6- is backed by up by a double blind clinical study vs placebo**

NANOX BASICS

BCAA 1000 - 120 white ivory capsules

BCAA 1000 is a food supplement containing 1000 mg of Branched Chain Amino Acids per capsule plus 0,4 mg of vit B6. Nanox only utilizes free form amino acids of the highest quality for its products manufactured at Ajinomoto, which are the most readily absorbable forms of singular amino acids.

CREATINE PURE – 300 gram

When it comes to perfection Nanox Nutraceuticals use the most purified micronized Creatine monohydrate for its product, reaching a 99,9% pureness and has European DMF certification.

L-GLUTAMASS – 250 gram

L-Glutamass contains a mix of naturally L-Glutamine with a highly digestible L-Glutamine peptide – bond fraction in a 50% mix. Glutamine peptides are more stable and better assimilated to your body compared to pure Glutamine.

TRIBULUS – 90 capsules of 750 mg

Nanox Nutraceuticals has selected a top quality Tribulus extract containing a high concentration on protodioscin (40 % saponifiable) in biological balance with all other elements naturally present in the extract for achieving an optimal effect.

HMB – 120 capsules of 500 mg

HMB is of benefit during strenuous strength training, and may help endurance athletes by accelerating recovery and/or preserving muscle mass during serious training.
